There are regular train and bus services, including the Thanet Loop, to the neighbouring resorts of Margate (3.4m / 5.5km) and Ramsgate (2.3m / 3.7km). Charles Dickens, one of the town's most famous former visitors and residents, would easily recognise the narrow streets and flint walls in the older parts of the town and the streets winding down to the small fishing harbour.

Throughout the summer 'Fully Booked' signs are regularly seen in the windows of the town's many guesthouses and B&Bs while self-catering houses and apartments are in great demand.

As a resort, and a long-standing favourite destination for people of all ages and interests, Broadstairs has more than held its own and is thriving in the 21st century. The town is now home to more than 24,900 people enjoying the changing delights of the seaside throughout the seasons.

Artistic impressions

The Victorian writer **Charles Dickens** (1812 - 1870) is probably Broadstairs' most famous regular visitor and it is not difficult to follow in his footsteps around the time and find the sources of inspiration behind many of his colourful characters and settings. Many of his novels were completed during his visits.

Author of *The Thirty-Nine Steps* and other exciting novels, **John Buchan** spent time writing during his 1914 visit to the town's North Foreland area near Stone Bay. The North Foreland lighthouse is said to be the inspiration for the title of **Wilkie Collins'** detective novel *The Woman in White*.

Frank Richards (Charles Hamilton), the creator of *Billy Bunter*, made his home at Kingsgate, Broadstairs. **Oliver Postgate**, of *Bagpuss*, *Noggin the Nog* and *Clangers* fame also lived in the town while **Annette Mills**, creator of *Muffin the Mule*, settled in St Peter's.

English Impressionist artist **Walter Richard Sickert** (1860 - 1942) regularly painted at his home in St Peter's village.

Sir Samuel Luke Fildes the artist lived for many years at Holland House, Kingsgate. He illustrated *The Mystery of Edwin Drood* before moving into portraiture and gaining a large and fashionable clientele, including Royals such as Edward VII, Queen Alexandra and King George V. These state portraits hang in Buckingham Palace.

Roots, revival and regeneration

Originally Broadstairs was purely a fishing settlement much smaller than the inland village of St Peter's, established around the parish church. The coast was extremely popular with smugglers and the residents of Broadstairs and St Peter's had a reputation for being very good at outwitting customs agents.

In the early 19th century, steam packets, closely followed by the railways made trade and travelling links with London much easier and faster. New residents and visitors began to arrive and by the beginning of the 20th century the population in the now rapidly growing seaside town topped 10,000. Today Broadstairs is home to approximately 25,000 people.

Grand houses, impressive estates for wealthy Londoners and their families, and hotels were built along the cliff tops and in the town. Broadstairs quickly established itself as a highly

desirable place to live and visit throughout the year.

Investment and the development of new retail parks and a major modern shopping leisure centre at Westwood Cross, on the outskirts of the historic town, has enabled businesses to restore and revive many of Broadstairs' traditional buildings as independent shops, contemporary visitor accommodation and weekend escapes for second homers.

A multi-million pound investment is transforming East Kent College's historic Yarrow Building in Broadstairs into a Four Star Training Hotel which is scheduled to open in July 2016. (See page 9).

Margate, Broadstairs, Ramsgate – why visit?

Londoners have been **escaping** to the Isle of Thanet for more than 200 years ... for the **laidback** seaside vibe ... breathtaking sandy beaches ... **fresh** sea air ... and **romantic** Turner skies ...

Here at the very **edge** of the **Garden of England**, three **Georgian and Victorian** resorts, each with its own distinctive character – Margate, Broadstairs and Ramsgate – **cluster** around the **bays** at the far end of the **peninsula**.

There's a **retro** feel to these harbour towns, with their remarkable 18th and 19th century **architecture**, their **classic seaside heritage** and kitsch, their eclectic attractions and live arts and music venues. And there is a variety of **independent** places to shop, eat, drink and stay.

Miles of low **chalk cliffs** edge the peninsula, sheltering a string of **secluded, unspoilt sandy bays**. Chalk **rockpools**, chalk stacks and **rare**

chalk reefs teem with **wildlife**. These are the closest **surfing beaches** to the capital city: a popular choice with south east boarders.

Artists, writers and musicians have long been inspired by this almost-island ... and continue to be drawn here. **Turner** said Thanet had "the loveliest skies in all Europe" ... for **Dickens**, Broadstairs was "the freshest, freest place" ... and Tracey **Emin** declares in green neon on Margate seafront: "I never stopped loving you".

The Isle's a **historic landing place** steeped in symbolism for the story of Britain ... the **first Saxons, Hengist and Horsa**, arrived and settled here ... and **St Augustine** first stepped onto these shores on his way to nearby **Canterbury**.

For this is the **furthest** south east you can go in Britain ... almost touching mainland **Europe** ... yet these days only 75 minutes from central London ...

And now with the **Turner Contemporary** gallery, the return of the iconic pleasure park **Dreamland**, reimagined for the 21st century, and **high-speed trains** from the capital ... a **new generation** is discovering this **original seaside escape**.
